

Advanced IP Communication Systems Provider Which Can Simplify Your Operations, Save You Money

Before launching StarView, our management team and technical crew designed, developed and sold complex telecommunications services to Fortune 500 companies and deployed nationwide networks for both domestic and international carriers. What ties us together is our advocacy for making advanced technology accessible.

Now, we plan to put our knowledge of the industry and technology to work for small and mid-sized businesses by taking the guesswork out of choosing a flexible IP communications system that will improve operating efficiency, evolve as technology advances and scale to meet changing business needs. Businesses of all shapes and sizes can now employ solutions only once available to the privileged few. SMB's can utilize IP capable small business phone systems along with SIP Trunking to take advantage of the best of IP phone services.

StarView owns and operates a geographically redundant, next generation network with capabilities to provide VoIP services globally. Large or small business, one site or multiple locations, enterprise or carrier - we have an IP solution that fits your needs. As a provider of advanced IP communication systems and services we can show you how Voice Over IP (VoIP) can simplify your operations, save you money, increase productivity and reduce overhead.

If you have a broadband connection you can take advantage of the IP Phone Services that drive Fortune 500 companies. Don't let a barrage of telecom industry acronyms and overworked marketing "strategies" prevent you from maximizing every dollar you spend on telecommunication services for your business/**office phone systems**.

â€¢ SIP trunks â€” The fastest, easiest, least expensive way to integrate VoIP into your current communication system.

â€¢ Hosted PBX â€” Achieve a Fortune 500 presence with all the "bells and whistles" for only a fraction of the cost and none of the headache.

â€¢ IP Star Pack â€” Just getting started or looking to improve efficiencies StarView IP Star Pack makes available to you the most useful IP Phone System features.

â€¢ Internet Access â€” Need Broadband Internet access for your office or home? We offer varying Broadband speeds including DSL, T-1, and Metro Ethernet.

â€¢ Data Services â€” Private line and MPLS services available. Contact us for a quote.

â€¢ Wholesale â€” In the market for carrier class services?
