

Life Quotes (Inspiring Your Life) - Great 3 Life Quotes Explained

One of the best sources for inspiration is enlightening quotes. Those kind of quotes can be found through the quotation dictionaries or treasuries. My favorite quotes category is life quotes. Life quotes provides us wisdom to make good life. At the same time, it gives us life lessons without requiring us to through the experience. All thanks to the wise people who shared their wisdom, views and opinions through amazing sayings. I want to share with you some of my favorite life quotes. I have been collecting life quotes and I found these quotes to be the best among them.

The first one is, "Life is like writing with a pen. You can cross out your past but you cannot erase it." The source for this wonderful life quote is unknown, however, it contains the truth about the past. We cannot change the past, no matter what we attempt to do, it will always remain there. It cannot be changed. Thus, it's better to focus on present to create something beautiful in life. Howard Martin has said you are writing the story of your life one moment at a time.

Another great life quote I've known of is, "When life gives you hundred reasons to cry, show life that you have thousand reasons to smile." I love this life quote very much. It makes us strong and gives us strength to face any changes and situation that comes in our life. It reminds us no matter any bad thing arises, there are always good things that we can cheer about and be happy.

Next wonderful life quote is, "Yesterday is history, tomorrow is a mystery, and today is a gift; that's why they call it present." which was written by Anna Eleanor Roosevelt. The best thing about this life quote is that it acknowledges us that yesterday is history. We should learn from the past, that's the purpose of history exists. Tomorrow is mystery. Nobody knows what s going to happen yet all of us know anything can happen. Everything has its own place in time and it will not reveal to us until it comes. Now, today's a gift and it's called present. Overall, it's saying we should appreciate that we have today and not to think much about tomorrow. Always do good and be happy for today.
